

# Empower your merchants without sacrificing security or speed

A thorough underwriting process is critical for Partners' and merchants' safety, but traditional risk reviews often delay transactions and hinder growth. With Instant Merchant Activation, Payrix helps maintain risk management standards without impacting your merchants' ability to transact and receive their funds.

## Seamless onboarding experiences

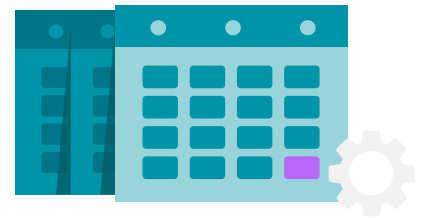

- Build merchant satisfaction, loyalty, and trust with an effortless onboarding experience.
- Reduce merchant paperwork and manual verifications by automating data collection which will in turn reduce partner input needed if application flags arise
- Increase auto-board rates

## Speed up transactions while effectively managing risks

- Enable merchants to generate revenue faster with accelerated approvals that exceed industry-leading standards.
- Start transacting and receiving disbursements promptly while still undergoing review by an underwriter.
- Tailor solutions for merchant onboarding needs with flexibility in handling different risk scenarios.

## Streamline operations to fuel your growth

- Accelerate onboarding on a large number of merchants as your business grows.
- Reduce manual processing costs and improve profitability.
- Gain a competitive edge when you're able to offer faster onboarding than manual methods.

Get your merchants onboarded to take payments up to **2 weeks** faster.

Increase autoboard rates by up to **10%**.

Contact your Payrix Account Manager today to learn more.

Please note that Instant Merchant Activation is established in existing autobordering flows today.
